LEATHERMAN®

2014 CATALOG

THE ORIGINAL AMERICAN MULTI-TOOL™

When Tim Leatherman founded Leatherman Tool Group, Inc. in 1983, he set out to create original products to improve people's lives. He also knew he wanted to create jobs for hard-working Americans who shared his passion for great design and best-in-class manufacturing. After more than 30 years and more than 70 million tools, we're proud to say our one and only manufacturing facility is still right here in Portland, Oregon, employing more than 600 people. We're just as proud to say, in all this time, we've never wavered from Tim's traditions of application-driven design, superior materials and detailed finish work. For 30 years we've supported people with products that prepare them for the expected and the unexpected and our community with jobs and growth.

Leatherman. Leave nothing undone.

INTRODUCING LEATHERMAN LEAP™

Now there's a multi-tool with the same features as a traditional Leatherman, but engineered specifically for a younger user: the Leatherman Leap.

Recognizing that it's maturity, not necessarily age, that determines when a user is ready for more responsibility, Leatherman crafted the Leap multi-tool with the unique ability to be used without a knife blade. When the user feels comfortable, the knife blade may be permanently added to the tool.

Other special features of the Leap include safety locks that never put the users fingers in the path of the tools, a two-hand opening knife blade for safer blade deployment, and an ergonomic grip specifically designed to train the user to operate tools in the opposite direction of him/herself.

Some of our favorite childhood memories are of mentors who took their time to pass on a valuable skill or life lesson. Together, Leatherman's engineers are helping adults pass on their tool skills and build a meaningful heritage with the next generation.
